DCPS Summer Extended Learning and Enrichment

How is your child spending summer break?

DCPS offers many enriching opportunities for current DCPS students from elementary through high school over the summer months. From enrichment to credit recovery, find it at DCPS!

Select a program below to learn more, including locations and registration information.

Elementary Summer Learning

Ignite your passion and discover a joy for reading!

Summer Discovery (Grades K-5): DCPS has partnered with an organization to help bring our curriculum to life in a virtual setting. We are excited to dive into their project-based learning approach in Literacy and Humanities or STEM. Through interactive videos, engaging texts, and culminating projects, these partners bring the hands-on experience of our traditional summer enrichment program to life. While students will participate in a series of learning modules, they will also have one-on-one learning session, whole-group sharing, and additional family resources available. Some of the project highlights include:

- Learn about angles and lines, polygons, and area and perimeter by designing a wildlife sanctuary
- Conduct research for an op-ed and then create an investigative journalism report for a news show
- Learn about plant and animal inheritance and life cycles by devising a plan to save the bee population
- Create virtual museum exhibits to showcase the history of their state.

Student Grade Levels: Current Kindergarten through 5th grade

Dates: Monday, June 22 – Friday, July 24, 2020 (except July 3)

Times: Varies, but generally 9 am to 1 pm

Registration: Registration for summer learning began on March 10. Students who have already registered for the program will be given first priority for seats.

Go to dcps.dc.gov/summerlearning to register for Summer Learning.

Contact dcps.summer@k12.dc.gov for questions.

Springboard Collaborative (K-2)

DCPS is pleased to continue our partnership with Springboard Collaborative and will be hosting their program for early readers virtually. This program is intended for K-2 students who would benefit from additional support in reading. In addition to targeted reading instruction, the program also includes virtual home visits, family workshops, and incentives for students and families. *Eligible families will be contacted by DCPS with instructions to register.*

Student Grade Levels: Current Kindergarten through 2nd Grade

Dates: Monday, June 29 – Friday, July 31, 2020 (except July 3)

Times: Varies, but generally 8 am to 1 pm

Location: Virtual
